Read the following instructions carefully:

1. The paper has two sections: A and B.
Section A has 20 questions and Section B has 12 questions
2. Answer all questions. All answers to both sections A and B must be written in the spaces provided.
3. All working must be done using a blue or black ball-point pen or fountain pen. Any work written in pencil other than graphs and diagrams will not be marked
4. No calculators are allowed in the examination room.
5. Unnecessary changes in work may lead to loss of marks. Any handwriting that cannot easily be read may lead to loss of marks.
6. Do not fill anything in boxes indicated: "For Examiners' Use Only" and those inside the paper.

SECTION A: 40 MARKS

*Answer all questions in this section.
Questions 1 to 20 carry two marks each*

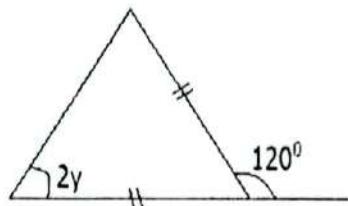

1. Workout: $24 \div 6$

2. Round off 3974 to the nearest hundreds.

3. Solve for m: $7 + 3m = 16$

4. Given that $K = \{w, 7, k, 4, 0\}$. Find the number of subsets in set K.

5. Find the value of y in the figure below

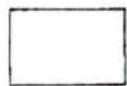

6. Workout: $7 - 4$

7. Simplify: $\frac{7}{8} - \frac{5}{8}$

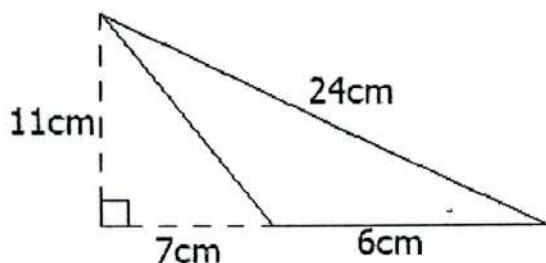

8. Mr. Kapere's birthday party started at 5:00p.m. and ended at 9:30p.m. How long did the party last?

9. Geofrey bought 3hens at sh. 60,000 and later sold each at sh. 25,000. How much profit did he make?

10. A basket has 15 yellow and 5 green oranges. Find the probability of picking a green orange.

11. Calculate the area of the triangle below.

12. A motorbike uses 3 litres of fuel for every 30km. Find the number of litres needed to cover 270km.

13.The mean of 6, 7, m, 9 and 8 is 7. Find the value of m.

14.Workout: $4 + 5 = \dots \pmod{7}$

15.The L.C.M of m and n is 120 and their G.C.F is 4. If m=24, find the value of n

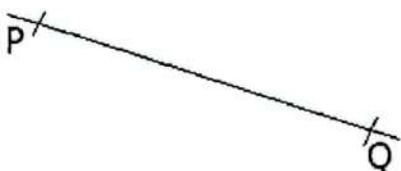

16.Express 0.5454... as a common fraction in its simplest form.

17. Find the circumference of a circle whose radius is 14dm.

18. Given that  represents 12 chairs. Draw a pictograph to represent 36 chairs.

19. Write 198 in Roman numerals.

20. With the help of a ruler, a pencil and a pair of compasses only, bisect the line segment PQ below.

SECTION B: 60 MARKS

Answer all questions in this section.

Marks for each question are indicated in brackets

21.a) Change 113_{five} to decimal base. (2 marks)

**b) If today is Wednesday, what day of the week will it be after
26 days? (3 marks)**

22.a) Find the number whose scientific notation is 3.7×10^3 (2 marks)

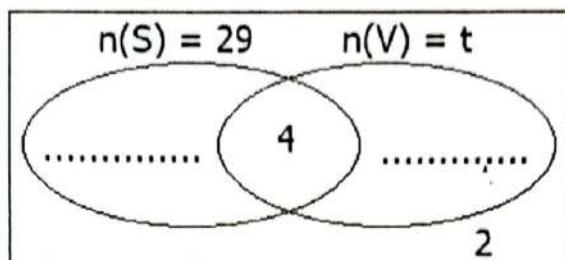

b) Solve: $2^k \times 2 = 32$ (3 marks)

23. In a class of 40 pupils, 29 pupils play soccer(S), t play volleyball (V) and 4 play both soccer and volleyball. 2 pupils do not play any of the two mentioned games.

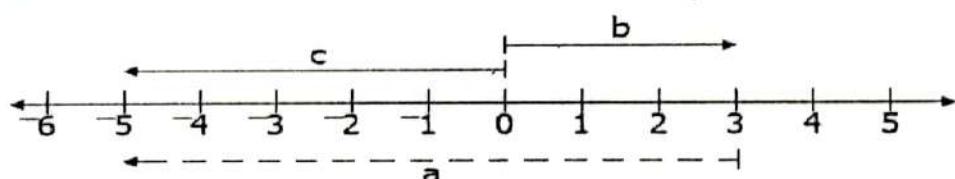

- a) Use the above information to complete the Venn diagram below (2 marks)

$$n(\varepsilon) = 40$$

- b) Find the value of t. (3 marks)

24. Use the number line below to answer the questions that follow

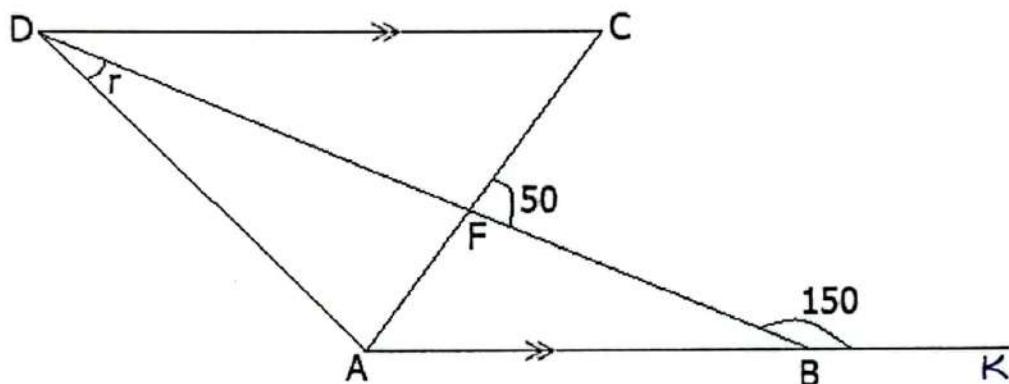

- a) Write down the integer represented by the arrow: (1 mark each)

i) $a = \dots$ ii) $b = \dots$ iii) $c = \dots$

- b) Write down the mathematical sentence shown on the number line above. (1 mark)

25.a) The interior angle of a regular polygon is 135^0 . Calculate the size of its each exterior angle. (3 marks)

b) In the figure below, angle $CFB = 50^0$, angle $FBK = 150^0$, angle $ADC = r$ and angle $BAD = 110^0$. Find the value of r . (2 marks)

26.a) Simplify $\frac{2}{3} - \frac{3}{4} + \frac{1}{2}$ (2 marks)

b) Workout: $\frac{0.36}{0.4 \times 0.3}$ (3 marks)

27. The table below shows the marks by some pupils in a P.7 class in a mathematics test. Use it to answer the questions that follow.

Marks scored	60	80	70	90
Number of pupils	2	3	4	1

a) How many pupils did the test? (2 Marks)

b) Calculate the mean mark (3 Marks)

28.a) Solve: $3(y+2) = 21$

(3 marks)

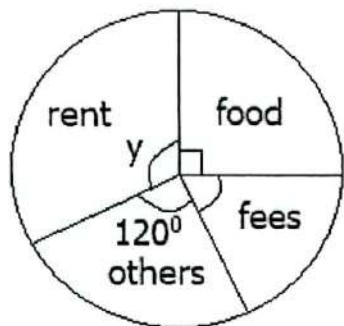

- b) During a study tour of a certain school, a P.3 child paid sh. 5,000 more than a P.2 child and a P.1 child paid sh. 2,000 less than a P. 2 child. If P.1, P.2 and P.3 classes have 40, 30 and 20 children respectively and the total collection was sh. 200,000, find how much money was collected from P.2 class. (2 marks)

29. Given the digits 3, 0 and 9. Use them to answer the questions that follow.

- a) Form the **smallest** and the **largest** three-digit numeral.(2 marks)

- b) Expand the largest three-digit numeral from the above digits using powers. **(2 marks)**

30. Odrek had sh. 720,000 and spent it as shown on the circle graph below.

- a) Express money spent on food as a percentage. **(2 marks)**

- b) If he spent sh. 168,000 on fees, workout the value of y . **(3 marks)**

31.a) Using a ruler, a pencil and a pair of compasses only,
construct a triangle ABC in which line BC = 7cm, angle ABC =
 60° and angle ACB = 45° . **(4 marks)**

b) Measure angle CAB **(1 mark)**

32. Study the shopping bill below and answer the questions that follow

ITEMS	UNIT PRICE	AMOUNT
4kg of posho	Sh.1,500	Sh.....
2 loaves of bread	Sh.....	Sh.9,000
.....kg of rice	Sh.4,000	Sh.8,000
TOTAL	EXPENDITURE	Sh.....

a) Complete the shopping bill table above **(4 marks)**

b) If Geno went with thirty thousand shillings, how much was his change? **(1 mark)**

SECTION A: 50 MARKS

Questions 1 to 50 carry one mark each

Sub-section I

In each of the questions 1 to 5, fill in the blank space with a suitable word.

1. Hillside Primary School started.....2001.
2. That is the girl..... I gave my pair of compasses.
3.a narrow road Masaka Highway is!
4. The skillful has made very good pieces of furniture.
5. Bruno is very happy because all the that his hen laid have hatched.

In each of the questions 6 to 15, use the correct form of the word given in brackets to complete the sentence.

6. Mr. Luswata was given a prize for being the best.....in the drama. (act)
7. Adrian's little sister will do the homework by (herself).
8. Reading a story book is more..... than writing an article. (interest)
9. Who is the of the twins? (healthy)
10. One should always ask for if one makes a mistake. (forgive)
11. When the thief saw the policeman, he off into the bush. (take)
12. Kampala is the most populated area in Uganda. (dense)

13. The thief was.....beaten by the mob. (severe)
14. Our teachers do not like children who are(quarrel).
15. The teacher punished the pupil for using.....language in class. (abuse)

For questions 16 to 17, rearrange the given words to form a correct sentence.

16. marriages avoid should We early.

.....
.....

17. bake Do cakes know you to how?

.....
.....

In question 18 to 19, write the short form of the given words.

18. Honourable.....
19. would not.....

For questions 20 and 21, arrange the given words in alphabetical order.

20. chalkboard, cupboard, cup, chalk

.....
.....

21. potato, yam, rice, millet

.....
.....

For questions 22 to 24, rewrite the sentences giving one word for the underlined group of words

22. Ann Mary's mother hates people who tell lies.

.....
.....

23. Some of our classmates are from Kenya.

.....
.....

24. Our school is not far from the police post.

.....
.....

For question 25 and 26, re write the sentence giving the opposite of the underlined words.

25. Kiprop always turns on the lights before entering his bed

.....
.....

26. Brenda walked upstairs to collect her clothes.

.....
.....

For the question 27 and 28, use each of the given words in sentence to show that you know the difference in their meaning.

27. Root

.....
.....

28. Route

.....
.....

In each of the questions 29 and 30, give the plural form of the given word.

29. ferry.....

30. goose.....

In each of the questions 31 to 50, rewrite the sentences as instructed in the brackets.

31. The teacher will not travel to Kampala next week. The school
nurse will not travel to Kampala next week.
(Rewrite as one sentence beginning: Neither.....)

.....

32. The boys cleaned the well. The girls cleaned the well.
(Rewrite as one sentence using and so.....)

.....

33. We started learning English seven years ago. We are still learning it.
(Rewrite as one sentence using: since)

.....

34. Disobeying our teachers is bad. (Rewrite the sentence beginning:
It.....)

.....

35. My uncle went to hospital. He wanted to see dentist.
(Rewrite as one sentence using in order to.....)

.....

36. Namuyisa likes weaving more than knitting.
(Rewrite the sentence using prefers.....)

.....

37. No sooner had the train left the station than more people arrived. (Rewrite the sentence beginning: As soon as.....)

.....
.....

38. Callista has not been studying. She has been playing football. (Rewrite as one sentence using instead of.....)

.....
.....

39. "Are you a prefect in your school?" the visitor asked me. (Rewrite as one sentence using: wanted to know.....)

.....
.....

40. Allan visited his grandparents last holiday, didn't he? (Rewrite the sentence beginning: Allan didn't.....)

.....
.....

41. Mother will go to the market. She will buy some fresh beans. (Rewrite the sentence using: when.....)

.....
.....

42. What a serious disease COVID is! (Rewrite the sentence using very)

.....
.....

43. Joan read the magazine. Joan read the newspaper. (Rewrite as one sentence using not only.....)

.....
.....

44. Whose pencil is that one?
(Rewrite the sentence beginning: Who.....)

.....
.....

45. Mrs. Ssemaganda fed her hens very well. They did not give her many eggs. (Rewrite as one sentence beginning: Although.....)

.....
.....

46. We should go to school early, or else the teacher will punish us.
(Rewrite the sentence using: if.....)

.....
.....

47. Our teachers always remind us to wash our hands before eating.

.....
.....

48. An old man is taking care of the goats.
(Rewrite the sentence beginning: The goats.....)

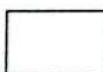

.....
.....

49. Fatumah is very beautiful. Joy is very beautiful.
(Rewrite as one sentence using: as..... as.....)

.....
.....

50. This pair of scissors is so blunt that it cannot cut a piece of cotton cloth. (Rewrite the sentence using: too.....to.....)

.....
.....

SECTION B: 50 MARKS

Questions 51 to 55 carry ten marks each

51. Read the passage below and then answer, in full sentence, the question that follow.

Preparations for our school-leaver's party were on. First, we had a meeting. In the meeting, we agreed to hold our party in imperial hotel on the last Friday of October. The other agreement was that we would invite all our teachers to the party. We also agreed that each one of us would pay ten thousand shillings to attend.

A few days to the party however, only one pupil called Joy had not paid. Her uncle, with whom she lived, had gone to the village to attend to his sick father. We all felt sorry for her. Joy was a very disciplined and intelligent girl. When she was our head girl, everyone at school liked her. Fortunately, our class monitor came up with an idea. He requested us to raise money for Joy to attend the party. He also talked to Mrs. Kole, our class teacher, about the issues.

Thankfully, she gave us five thousand shillings. We then raised the balance.

On the day of the party, we reached the hotel at midday. Smartly dresses waitresses welcomed us. "Who is the master of ceremonies of the day?" one of them asked us. Unfortunately, we had forgotten to identify a master of ceremonies (MC) in our meeting. The class monitor therefore requested Joy to be the MC of the day. we all jumped up and down with excitement. Soon the waitresses led us to a hall decorated with flowers and balloons. There was soft music playing. Speaking into the microphone, Joy asked us to take our seats. She then read the day's programme and advised us to behave ourselves.

At two o'clock, our lunch was ready. After our teachers had been served, the MC asked us to line up. As usual, some of us had no manners. We did not want to make a line and we poured soup on ourselves. However, at the end of it all, everybody was happy. We thanked the hotel management for their service. In special way, the class teacher thanked Joy for managing the party well. She also wished us success in our final examinations.

- (a) Why was Joy unable to pay for the party?

.....
.....

- (b) What did the class monitor request the pupils to do?

.....
.....

- (c) How much money did each pupil pay to attend the party?

.....
.....

- (d) When was the party held?

.....

- (e) Who received the pupils at the hotel?

.....
.....

- (f) Why do you think the pupils were excited when Joy was asked to be the MC?

.....
.....

- (g) Why would you think that the hall looked attractive?

.....
.....

- (h) Apart from pouring soup on themselves, in which other way did some of the pupils show lack of manners?

.....
.....

- (i) Why was Joy thanked?

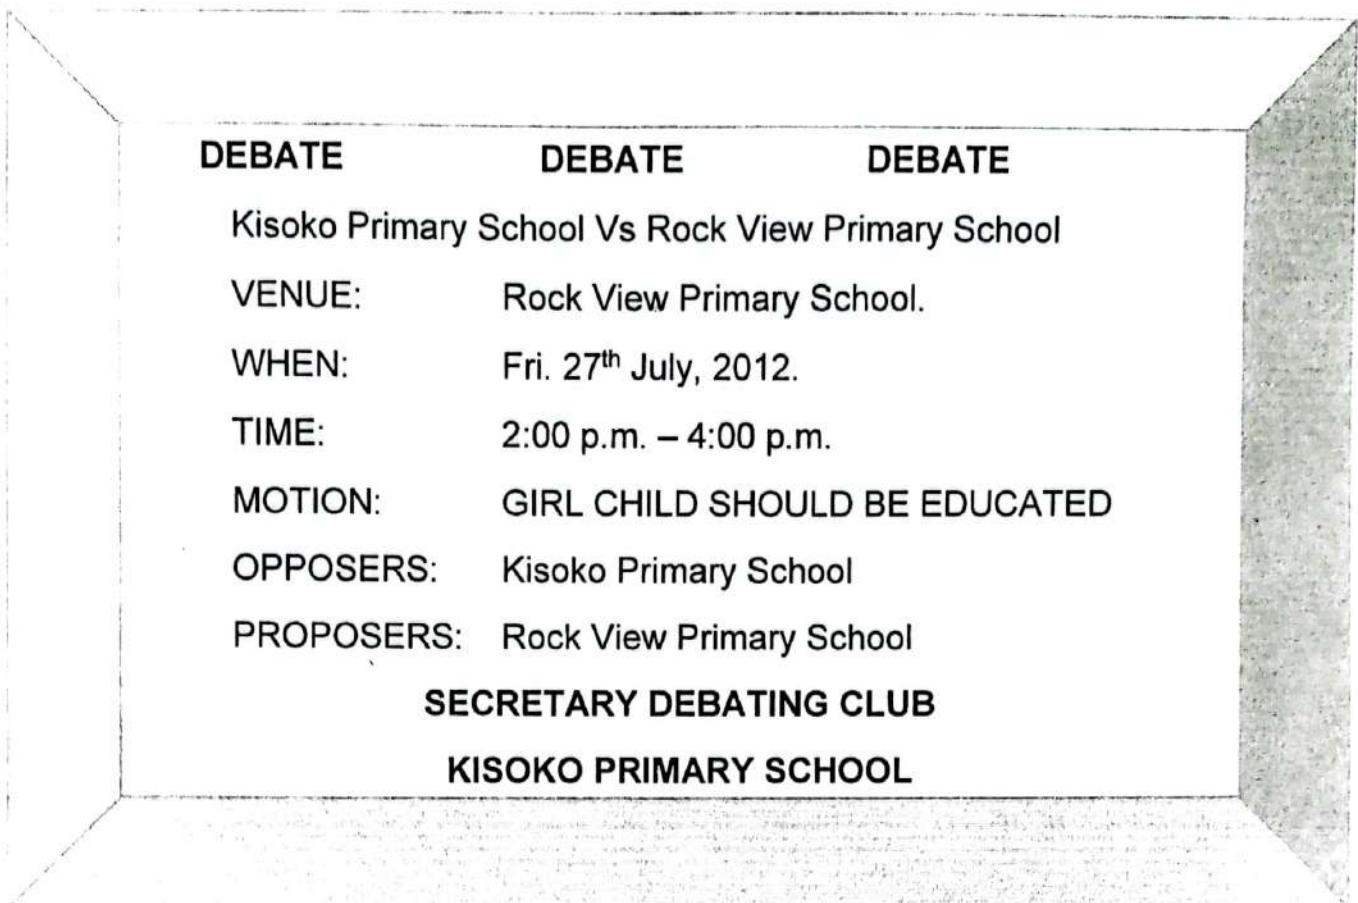

.....
.....

- (j) Suggest a suitable title for the passage.

.....

52. A. The poster below appeared on the notice board of Kisoko Primary School. Read it and answer the questions that follow in full sentences

a) What is the above notice about?

.....

.....

b) Where was the notice pinned?

.....

.....

c) Where will the debate take place?

.....

.....

d) When will the debate take place?

.....

e) Who will oppose the motion?

.....

52. B. Below is the Mock Examination time table for P.7 pupils of Delight Vision Primary School, Iganga. *Study carefully and answer, in full sentence, the question that follow.*

Date	Subject	Time	
Monday 18 th -8 Aug– 2024	Mathematics	Morning	9:00 a.m.
	Science	Afternoon	2:00 p.m
Tuesday 19 th –Aug-2024	Social studies	Morning	9:00 a.m.
	English	Afternoon	2:00 p.m

a) Which school used the timetable above?

.....

b) Where is the school located?

.....

c) Which subject was done last according to the timetable?

.....

.....

d) Which two subjects were done in the afternoon?

.....

.....

e) At what time did the English exam begin?

.....

.....

53. The sentences below are not in the correct order. Re-write them in the correct order, to form a short composition.

- a) On her way to the market, she met a stranger.
 - b) She refused to escort him.
 - c) She was sent to buy a pumpkin.
 - d) Nakijoba was sent to the market by her mother.
 - e) She accepted the gifts and went with him.
 - f) When the stranger saw her, he smiled and greeted her.
 - g) He then asked her to escort him to his home.
 - h) On the way to his home, they met her mother and the man ran away.
 - i) He then gave her ten thousand shillings and a packet of sweets.
 - j) Nakijoba's mother blamed her for being very greedy.

- 54.** Study the poem below carefully and in full sentences, answer the questions that follow.

Oh holiday! useful and Lovely!
Some call you vacation, others a break
Who made you, dear holiday!
You are as beautiful as day break
Every one longs for you.

Teachers await your arrival
Like a groom waiting for his bride
To relax from their daily routine
Standing all day, teaching and marking books
Without forgetting exams.

Learners long for you, lovely holiday
Sleeping a little more they're sure
Class work, homework daily bread
Sit down and shut up are no more
To the term's fatigue and torment
You are the only cure.

Our dear parents crave for you as well,
Great relief you bring them.
Relief from rising each day before down
And relief from some of the house chores.
Holidays, how lovely you are!

- a) What is writer talking about in the poem?

.....
.....

- b) Who is the writer of the above poem?

.....
.....

c) How many stanzas are this poem?

.....
.....

d) Which stanza talks about teachers?

.....
.....

e) According to the poem, how do children relieve their parents?

.....
.....

f) Why do you think learners love holidays?

.....
.....

g) To what is the holiday compared in the first stanza?

.....
.....

h) Give a **word or group of words** with the same meaning as each of the underlined in the poem.

i) relax.....

j) rising.....

k) Give this poem a suitable title.

.....

55. You were running back to class at break time and you knocked a primary one boy and he reported you to your head teacher. Write a letter to the head teacher apologizing for what you did. Explain why you were rushing back to class and how you knocked the boy. Promise never to do it again.

SECTION A:40 MARKS

Questions 1 to 40 carry one mark each

1. Name any **one** part of the human body where a gliding joint is found.

.....

2. State any **one** reason why pruning of trees is important in agroforestry.

.....

3. Why are school going girls advised to abstain from sex?

.....

.....

4. Give any **one** example of acaricides.

.....

5. Why do some farmers apply urea in their gardens?

.....

6. State the difference between casein and whey as products of milk.

.....

.....

7. Convert 212°F to $^{\circ}\text{C}$.

.....

8. Identify any **one** enemy of bees.

.....

9. How is the propagation of pineapples similar to that of bananas?

.....

.....

10. What do we call the growth movement of a plant towards light?

.....

11. State any **one** advantage of friction in our daily life.

.....

12. The absorption of food takes place in the ileum. State one way the ileum is adapted to this function.

.....

.....

13. What do we call the removal of excess or poorly growing crops from garden?

.....

.....

14. Besides providing manure and carbon dioxide, how are carnivorous animals beneficial to plants in the same environment?

.....

.....

15. How is the function of foliage leaves different from that of fleshy leaves in an onion?

.....

16. What happens to the density of water when it freezes?

.....

The diagram below shows two cups made of different materials. Use it to answer questions 17 and 18.

Plastic cup

Metallic cup

17. Which of the cups above will keep the tea hot for a longer time?

.....

.....

18. Give a reason to support your answer in number 17 above.

.....

.....

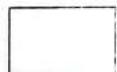

19. Why are people discouraged from keeping potted plants inside the house at night?

.....

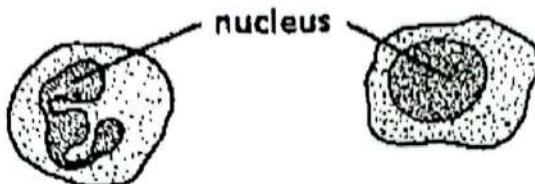

.....

20. Name the water borne-disease that affects the skeletal system.

.....

The diagram below shows blood cells. Use it to answer questions 21 and 22.

21. Identify the blood cells above.

.....

22. Mention **one** disease that attacks the blood cells shown above.

.....

23. What form of energy is stored in a dry cell?

.....

24. State **one** method used by some plants to climb others.

.....

25. Give **one** reason why people plant trees around their houses.

.....

26. How does the skin cool down the human body temperature on a hot day?

.....

.....

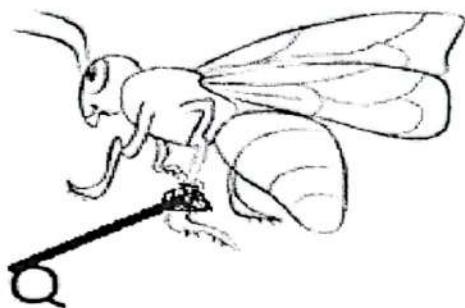

27. Give any **one** way in which earthworms are important in the soil.

.....

28. How is a chameleon important to human beings?

.....
.....

Study the diagram of a bee below and use it to answer questions 27 and 28.

29. Name the structure shown above.

.....

30. How is the above structure important to a bee?

.....

31. A duck billed platypus and Spiny anteater are examples of mammals. In which way are they different from other mammals?

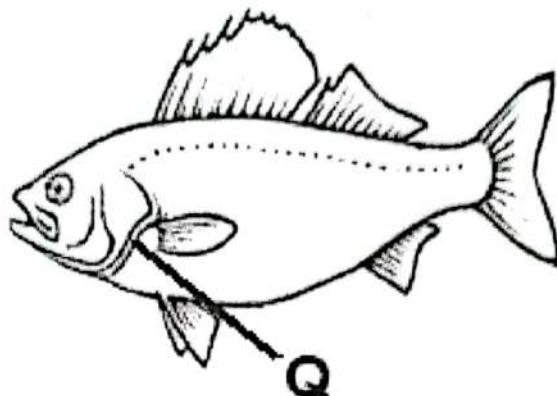

.....

.....

32. Give any one non-communicable disease that affects the respiratory system.

.....

Use the diagram below to answer questions 33 and 34.

33. Name the part marked with letter Q.

34. Why does the above organism die when it is out of water for some time?

35. Give any one raw material used by plants to make their own food.

36. State any one importance of doors and windows on a living house.

37. A magnet is a material that has the ability to attract magnetic materials. What is the importance of a magnet to a medical doctor?

38. Why is the government encouraging people to use biogas and solar electricity but not wood fuel?

.....
.....

39. Mention any one example of a natural fibre which is used in textile industry.

.....

40. How do cockroaches spread diseases to people?

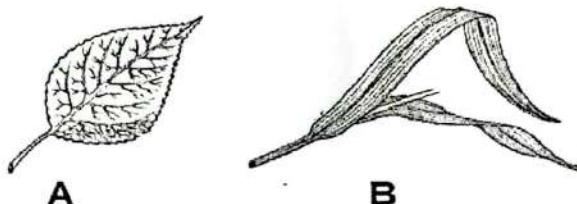

.....
.....

SECTION B: 60 MARKS

Questions 41 to 55 carry four marks each

41. The diagram below shows a kid of leaf venation. Use it to answer questions that follow.

- a) Identify the type of leaf venation in A and B
- (i) A.....
- (ii) B.....
- b) Name the kind of root system possessed by plant from which leaf B above was picked.

.....

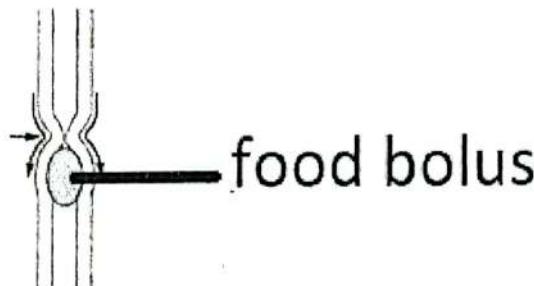

- c) Give one example of a plant with the above mentioned root system.
-

42. a) Give one importance of saliva in the process of digestion.
-
-

- b) Where in the human digestive system does absorption of water occur?
-
-

- c) Mention the condition under which pepsin works.
-
-

- d) Identify the process illustrated below.

43. (a) Give the meaning of the following terms as used in sound.

- (i) Frequency.....
- (ii) Pitch.....

(b) Give any **two** factors which affect the pitch of sound.

(i).....

(ii).....

44. a) Explain what is meant by term "immunity"

.....
.....

b) State any **one** way a baby can acquire natural immunity.

.....
.....

c) Give **one** kind of post-natal care given to a mother.

.....
.....

d) Mention **one** initiative put up by the ministry of health to reduce infant mortality rate.

.....
.....

45. (a) Give a reason why rusting is called a chemical process.

.....
.....

(b) Mention any **two** conditions that favour rusting to take place.

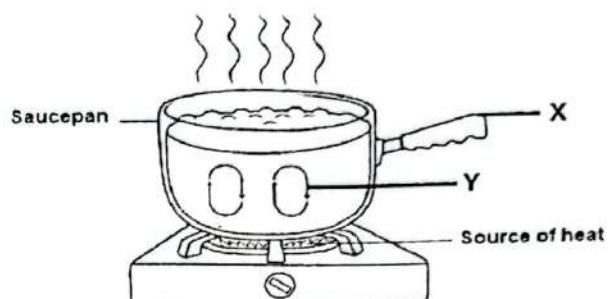

(i).....

(ii).....

(c) Mention any **one** metal that does not rust.

.....

46. Below is an experiment carried out by primary five pupils about boiling water.

- a) What scientific name is given to the movement of water as shown by arrows Y?

.....

- b) By what process does heat from the source reach the water in the saucepan?

.....

- c) Why is part X made of an insulator?

.....

.....

- d) What type of energy is possessed by boiling water?

.....

47. (a) What is seed dispersal?

.....

.....

- (b) How is seed dispersal useful to plants?

.....

.....

- (c) Give **one** characteristics of seeds dispersed by explosive mechanism.
-
.....

- (d) State **one** disadvantage of seed dispersal.
-
.....

48. Below is a list of human activities carried out by man in the environment.

Over cultivation

Terracing

Dumping untreated industrial wastes into rivers

Agroforestry

Stone quarrying

Draining swamps

- (a) Which activity is likely to cause soil infertility?
-

- (b) Identify the activity from the above list that reduces the amount of rainfall received in an area.
-

(c) From the above list, identify two conservation practices.

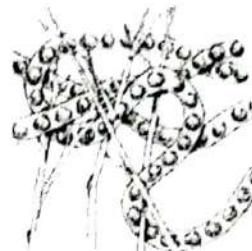

(i).....

(ii).....

49. Study the diagram below and answer the questions that follow.

A

B

a) Name the amphibian that lays eggs marked with letter.

(i) A.....

(ii) B.....

b) Which type of fertilization takes place in amphibians?

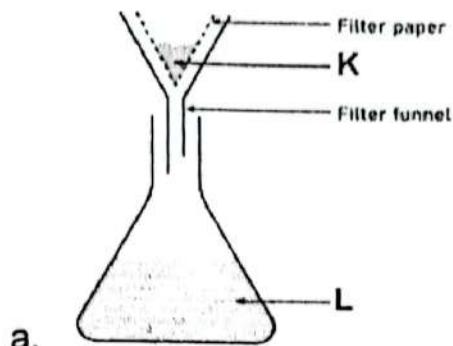

.....

c) Why are amphibians grouped under cold blooded vertebrates?

.....

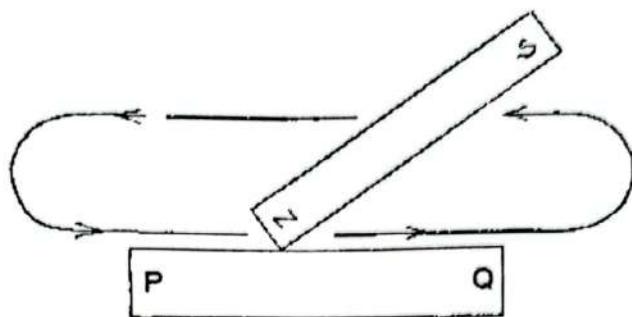

50. The diagram below shows one of the mothers of cleaning water.

- a.
- (a) Name the method of cleaning water shown above.
.....
- (b) How can the above collected water be made safe for drinking?
.....
- (c) Give the scientific name for substances marked K and L.
(i) K
(ii) L
51. a) Mention two renewable energy resources in the environment.
(i)
(ii)
- (b) Why is solar energy regarded as a renewable energy resource?
.....
- (c) How does the use of Hydro Electricity help to conserve the environment?
.....

52. Below is an illustration of magnetization. Use it to answer the questions that follow.

- (a) Identify the method of magnetization illustrated above.

.....

- (b) Name the pole at Q.

.....

- (c) Point out any **one** condition that can make a permanent magnet lose magnetism.

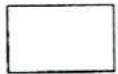

.....

.....

- (d) State **one** use of magnets in our daily life.

.....

.....
