51. **Read the passage carefully and then answer the questions about it in full sentences.**

#### **ENERGY RESOURCES**

There are several energy resources in our sub-county. You will take firewood, charcoal, solar and electricity as some of them. All those mentioned and many others there are very useful if they are well used. However, they can be very **dangerous** if we do not use them well.

Electricity is very useful since it gives us light. We can also use it to cook our food, heat water for bathing, iron clothes or used in factories to **run** machines. On the other hand, electricity can be very dangerous. It can shock you and die if you touch a live wire. Electricity can damage things like TVs, radios and other electric machines if you do not have proper wiring by a professional electrician.

Firewood from the shrubs and forests is very useful to people, especially those in rural areas. They use it to cook food, bake bread and warming people at a funeral vigil.

Nowadays, people have resorted to charcoal. They cut the trees and pile the wood to make charcoal. Then the charcoal is used instead of firewood. This is because it produces less smoke during cooking.

**Accidents! Accidents! Accidents!**

What a nightmare you are!  
On land, sea and air you dwell  
The rich and poor,  
The young and old you claim.

**Accidents! Accidents! Accidents!**

A fortnight ago, two you claimed  
My uncle and wife you took  
Gone in a motorcycle accident  
By a speeding van.

My nephew and nieces left alone  
Alone to fight for survival  
Responsibility left to the eldest!  
To stand up for his siblings.

Tough laws and penalties may help  
Two million shillings for speeding;  
Careless driving two years in prison.  
Remember to fasten the safety belt  
Get plenty of sleep and use not a cellphone  
The nightmare will be no more.
